- **Software Costs**:
    - Backup software: ₦20,000 - ₦40,000 per year
- **Professional Skills**:
    - IT support specialist: ₦100,000 - ₦200,000 per month
    - Network engineer: ₦150,000 - ₦300,000 per month

Premium Plan
- **Cost**: ₦600,000 - ₦1,200,000 per month
- **Services**:
- Comprehensive network monitoring and maintenance
- Data backup and recovery
- Helpdesk support (24/7)
- Monthly system audits
- Quarterly system optimization
- **Software Costs**:
- Backup software: ₦40,000 - ₦80,000 per year
- **Professional Skills**:
- IT support specialist: ₦200,000 - ₦400,000 per month
- Network engineer: ₦250,000 - ₦500,000 per month
- IT manager: ₦300,000 - ₦600,000 per month

Additional Services
- **On-site support**: ₦50,000 - ₦100,000 per visit
- **Project-based work**: Custom quotes based on project scope and complexity

Benefits
- **Improved IT infrastructure**: Regular maintenance and support ensure your IT systems are running smoothly and efficiently.
- **Increased productivity**: Helpdesk support and IT specialists ensure issues are resolved quickly, minimizing downtime.
- **Scalability**: Our plans are designed to grow with your business.

Compliance and Regulatory Requirements
We ensure that our services comply with relevant worldwide governing laws and regulatory requirements, including:

- **Data protection**: We comply with data protection regulations such as GDPR and other relevant laws.
- **Data security**: We implement robust security measures to protect data, excluding cybersecurity services which are offered separately.

Why Choose Us?
- **Experienced professionals**: Our team has extensive experience in IT infrastructure support and maintenance.
- **Customized solutions**: We tailor our services to meet your specific business needs.
- **24/7 support**: Our helpdesk support is available around the clock to ensure your IT systems are always up and running.

By choosing our IT infrastructure support and maintenance plan, you can ensure your technology systems are running smoothly and efficiently, while our separate cybersecurity services can provide additional protection for your business. Contact us today to learn more!
